

I would like to welcome all the new members and old back to G&J Kartway for the 2008 racing season which should be very exciting with the addition of the new track layout. I would like to encourage all members to get their membership application mailed in before the start of the first race as this will help Lynda Coombs and the girls during sign in and to make our race day go smoother. I also would like to encourage our members in promoting our club by distributing our literature at their places of work, school, and local stores that have bulletin boards. Contact myself , Lynda Coombs, or Randy Vermillion for literature to pass out. If everyone was able to recruit just one more member just think how big our classes would be and we all know it would be much more exciting to race in a large class.
